

# Katla Geopark: An Educator's Guide and Worksheets

*Geology and history*

## Ash Layers. Worksheet

### **Purpose**

To examine ash layers and understand how to use ash layers to date remains.

### **Execution:**

Visit the ash shelter at Efri-Vík where a cross-section has been dug into Bjarnargarður and protected from the elements with a roof and a door to enter. The ash layers are clearly visible, and many have been labelled. Draw a picture of the ash layers and enter in the names and dates of the eruptions in the picture.
